Retail Security Audit Checklist

A checklist to ensuring comprehensive security coverage for your retail premises.

This checklist is designed to assist you in identifying problem areas related to retail crime, loss prevention, and security with ease.

Beyond your borders.

- Do you have nearby locations that attract crime, malls?
(Malls, transport hubs, licensed premises)
- Does this affect your business?

How do you incorporate that into your security plan?

External

- Do you have bollards or qualify for government funded subsidised prevention measures? (bollards, fog cannons)
- Are your premises free from litter and graffiti?
- Can your customers see into your store, can you see them approaching?

CCTV

- Do you have CCTV installed internally and externally?
- Is your CCTV recorded and high quality?
- Is your CCTV strategically positioned?

How do you monitor your cctv systems?

Internal

- Is every customer acknowledged as they enter the store?
- Is your till location and store layout strategically planned to prevent retail crime?
- Are shelves low enough to see the whole store from the counter?

After Hours

- Do you have a high-quality alarm system?
- Is valuable stock removed from the shelves and stored securely?
- Is there sufficient lighting covering your premises?

How are your alarms monitored?

How are you alerted to a security breach?

Other Preventative Measures

- Are you engaged with your localised retail community?
- Do you have a safety plan you practice with your team?
- Does your team know what's expected of them during a retail crime incident ?
